
title: EMPLOYMENT EXPERIENCE

date: 2019-03-24 02:56:33

I have worked in 2 companies in field of smart grid and Internet. In the future, I wish to work in internet companies as data analyst and consultant.

 Mobike

Intern of department of Data Analysis & Business Intelligence, Beijing, China From June 2018 to Sep. 2018

Mobike is an internet technology company offers bike sharing service to fulfil urban short trips. As an intern in Department of Data Analysis, I: * Operate, test, design internal data system (Product Manager). * Operate and Design internal data producing environment for BI (Product Manager). * Design Wechat Mini Program to display operation index & data. * Design Data Platform APP. * Offer solution to data-related requirements as a Data Analyst.

 NARI

Intern of Department of System Integration, Nanjing, China From July 2017 to Aug. 2017

NARI is a technology company offers intelligent industrial equipments ranging from power electronics to water conservancy and rail transit. As an intern, I: * Operate, assemble Linux Server. * Assemble smart grid operation software system.
